THE effect of the great war on Men's Clothing will be felt this spring—still more next fall.

We have had to buy with greater care and discrimination than ever, to protect our customer against poor fabrics.

That's why we appreciate having a line of medium-priced clothes for men and young men that is absolutely dependable—Clothcraft.

Every piece of cloth that enters the factory is tested mechanically to determine its strength and chemically to prove its ingredients. This is but the first of a long series of safeguards that protect Clothcraft values.

But don't wait too long, there'll be greater demand this spring for nationally known value like Clothcraft. Buy early

Well February is gone and spring will soon be here. In a short time the spring sunshine will come, the farmers will begin to master up their tools and hitch up the old roan horse and begin to scatter the oats and grass seed, and the birds will begin to warble, flowers bloom and the earth will swell with sweet perfume, the cows will begin to roam over the hills in quest of green vegetation. Then will come the convention, and Wilson will be nominated and all things will move on lovely.

L. H. Rice has been changed from here to Paris and given a regular job braking and some one is shedding tears.—Rev. Masters, of Corbin has closed a series of meetings at the Christian church. Now that the ground hog question is to be settled by the legislature, our mind can be at ease on that question, as for some time past the American people have been divided in their opinion as to the influence that the ground hog had over the weather, and our old friend, Maret, has pointed out the outcome. We are satisfied and will take the weather just as it comes, and as it is to be fixed for the Fourth of July, one celebration will do for both events, but truly there is one thing we would like to bear and that is the debate on both sides of this question.—Mrs. William Fallas, who has been very sick for a few days, is rapidly improving.—Mrs. Georgia McClure, after being confined to her room for a few days, has about recovered.—S. C. Franklin, the L. & N. watch inspector, of Mt. Vernon, was here Monday. This is the same Franklin that has all kind of curiosities on exhibition in his shop. When the writer once visited him he showed us everything from an old fashioned horse pistol to a cook-

clock.—The Junior supper given here by the Jr. O. U. A. M. was a grand success. There were several present from Mt. Vernon and other towns and all report a splendid time.

DANGERS OF DRAFT

Drafts feel best when we are hot and perspiring, just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuralgic Headache will find one or two applications of Sloan's Liniment will give grateful relief. The agonizing pain gives way to a tingling sensation of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 25c. at your Druggist.

DIXIE HIGHWAY ROUTE IN DOUBT

Nashville Chattanooga Link Is Blocked

Tourists May Be Sent Over Eastern Way

A special dispatch from Chattanooga appeared in Monday's Courier Journal, with the above heading at top of the column of matter in the message. "Facing the prospect of having to route the Dixie Highway travel on the eastern division of the highway from Indianapolis to Cincinnati and thence south through the Blue Grass (Lexington, Richmond, Mt. Vernon, London, Corbin, Cumberland Gap) and Cumberland mountains, just because two or three counties between Chattanooga have not lived up to their pledges to the Dixie Highway Association at the time the highway was designed. Unless these counties give positive guarantee that they will take care of their section of the highway, the directors of the Association at their meeting in Macon, Ga., on March 25th, will be asked to relocate the highway between those points.

The Chattanooga Club, which was largely responsible for the Dixie Highway movement is planning an extensive publicity campaign, directing tourists from the North over the eastern division of the highway from Cincinnati to Chattanooga, which has been amply provided for, until such a time when the Nashville-Chattanooga road is ready for travel."

It is up to the counties of Rockcastle, Laurel and Knox to "get a hustle" on, and do about forth with. This is an opportunity that should not be overlooked to catch this great flow of travel, which can be done by the early completion of the highway through these three counties. All the other links will be closed by or the middle of this summer. Every officer and citizen of the three counties should take immediate interest in the work and aid, encourage and push the construction to an early completion. Immediately after the highway is ready for travel a good income is assured, especially to the mountain section, from tourists, who will travel over this great trunk line by hundreds every week throughout the year. This income, from the tourists, in addition to the many great advantages to be derived by our citizens from the good roads will add very materially to the prosperity of the mountains.

Let everyone boost.

A GOOD BILL.

W. J. Sparks, of Mt. Vernon, head of the Eastern Route of the Dixie Highway, and one of the promoters of the scenic Southern automobile tour, is in Frankfort in the interest of good roads legislation.

One of the bills Mr. Sparks particularly is urging, gives the State Road Commissioner authority to designate the route for State aid when the Fiscal Court can not or will not select one. Mr. Sparks said that Knox, Laurel and Rockcastle are being delayed by reason of Fiscal Court disagreement over the roads to be improved, and Laurel has been held back nearly a year.

It frequently occurs, he said, that local influence almost compels a magistrate to hold out for the improvement of some unimportant section of a road that passes some body's farm, while other Magistrates are subjected to pressure in other quarters and among them they would fritter a bond issue away on patch work to the neglect of the main thoroughfares. He said he believed many Magistrates would be glad to have this relief. The bill gives the Fiscal Court full freedom to act; but when the Magistrates disagree or a percentage of the citizens unite in petitioning for a certain route, the Road Commissioner is made referee. —(State Journal, Frankfort.)

If the needed sum for the auditorium is not raised, says Uncle Ajax, the people should take what they have and build a mausoleum in which to bury all civic pride.—Louisville Newspaper.

If a sufficient amount is not subscribed to erect the auditorium, there will be no need for any mausoleum, for the simple reason no civic pride can be found: "no rich animal" will be aloof in the city. If liberated it would be swatted before it could travel from the city hall to the court house.

"We can, we will, in Louisville," is the slogan of the city by the Falls, and the State's metropolis, again demonstrated its rightful claim to the six words contained in the above slogan. The business and professional men of that live city have just raised, after a few day's canvass the sum of \$250,000 to be used in the construction of an auditorium. The soliciting committees will continue the work until the sum reaches \$300,000.

KNOX, Laurel and Rockcastle counties should seriously consider the Dixie Highway situation, as shown by a dispatch from Chattanooga in Monday's Courier Journal (and copied elsewhere in this issue of the Signal) and to make every possible effort to get the Dixie-Boone constructed through their territory during 1916, and gain the great tourist route.

THE Atlanta Constitution of Feb. 20th had a full-page article and a map of Eastern Division of Dixie Highway, by A. F. Sanford, one of Knoxville's good roads men. A copy can be seen at the store of U. G. Baker, or Fish & Son, and county clerk's office. Of course, Mt. Vernon is on this map. She is on all of them since Boone Way was anchored thereon.

A KENTUCKY Judge is after the society women in Madisonville for playing bridge. And in Virginia the Legislature has been talking about abbreviated skirts. But no blim-blam blankety Judge or Legislature can take away from woman the prerogative of the last word.—(Columbia Record.)

AN EXCHANGE says all chickens come home to roost. Yes, but some of them frequently get back to the parental roof only a short time before daylight.—(Danville Messenger.)

This sounds Landsamesque and somewhat Woltonese.

SINCE the recent decision of the Court of Appeals that only a majority is required, instead of two-thirds of the vote cast, in road bond elections, a greater impetus has been given road building throughout the state.

THE greatest battle that has ever been fought in the history of the world has been in progress for eleven days around Verdun, France, between the German and French armies. The slaughter is appalling.

Now that old-time furniture is coming back in style, we expect at any minute for father to crawl under the house and drag out the horse-hair sofa and the what-not.—(Macon News.)

THE Interior Journal is now issuing a four page, seven-column paper on Tuesday, and eight pages on Friday to its 1,000 subscribers.

LOUISVILLE good roads advocates are preparing to resist efforts to divert travel from the Western Dixie Highway.

THE Germans say they believe the war is nearing an end. The British and French seem to think otherwise.

KNOXVILLE BOOSTERS COMING

One hundred Knoxville business men will visit sections of Kentucky, North Carolina, Virginia, and Tennessee, between April 11th and 14th. This party will represent all of the biggest commercial and industrial organizations in Knoxville. Manufacturers, bankers, wholesalers, retailers and professional men have arranged to go on Knoxville's first trade trip. A special train will be secured to accommodate the Knoxville trade builders. The committee in charge has announced that every effort will be made to make the trip of mutual advantage to business men of the forty-three towns which will be visited. The Knoxville Board of Commerce has arranged the tour so that the members may come in personal touch with the business men throughout Knoxville's trade territory. One of the slogan's of the party is "Get Acquainted." Stress has been laid upon the fact that the men who will make the trip are just as anxious to buy as they are to sell. This is the first tour of the kind ever undertaken by the Knoxville Board of Commerce and it is expected to be profitable to both the visitors and the visited.

The personnel of the party is made up of the most prominent men of Knoxville. Practically every big enterprise in that city has signified its intention of having a representative make the four days trip on the special train. Commercial bodies in many of the towns and cities to be visited have already arranged a program for the entertainment of the visitors. These programs include banquets, automobile trips, inspection tours, parades, speech makings and hand shakings galore. Committees in other towns are planning novel ways to get acquainted in the shortest time. The Knoxville Committee is delighted with the enthusiasm which the announcement of the trade trip schedule has created. Every effort is being made by them to co-operate with the local trade bodies in their entertainment plans, so that the trip may be of mutual profit and pleasure. It is considered one of the most important steps ever taken in the building of a closer relationship between the small town merchant and manufacturer and the Knoxville merchant and manufacturer, and promises to be one of the most successful trade trips ever made in the south.

The committee in charge are endeavoring to impress upon the commercial bodies in the towns to be visited that this trade trip isn't made for selfish motives. The social and the personal contact features are considered the most important, and every effort will be made by the men of the "special" to make real friends of the men they meet along the route. The Knoxville wholesalers want to visit the stores of the men to whom they have sold goods in the past. The retailer wants to meet the men who have bought their supplies from him. The bankers in the party want to know the bankers in other towns and cities, and so on through the list. Of course, every man in the party wants to increase the business he is now doing but what is more important, every one of them wants to know from whom to purchase some of the products of the sections visited.

The special train to be used in transporting the party through East Tennessee, Western Kentucky, Southwestern Virginia, and the Western portion of North Carolina, will consist of eight all-steel Pullman coaches, including two dining cars. It will be completely fitted out with all conveniences of modern travel and will be the home of the men composing the party for the four days of their trip. Knoxville literature, business catalogues, advertising novelties and souvenirs will all find a place on the "special". Knoxville's business men are undertaking the trip in a whole-hearted way which assures its success, and are planning to do things on a big scale. A band

will accompany the party to furnish music at all entertainments, as well as to head the parades which have been arranged for by several of the towns to be visited. This band will number about twenty-one pieces and is considered one of the best organizations of its kind in East Tennessee. No expense is being spared by the Knoxville Board of Commerce to make this trip successful in every detail. Committees have been appointed to arrange for the special train, the band, and other special features of the excursion, which will be announced later. All members of the party are to be dressed alike, and each will carry a red, white and blue umbrella, and wear a white duck hat. This paraphernalia will distinguish the visitors from the local "doers" in the towns visited and is calculated to make an impression wherever seen. One member of the trade trip party is reported to have balked at the striped umbrella, but, upon being told that it would help him make a vivid impression upon strangers, he consented to carry it.

The keynote of the whole trip and of the men who are behind it, is a desire for personal acquaintance. Many of these men know by reputation and business dealings, they will meet upon this trip. They believe that by getting acquainted their circle of friends will be widened, their business increased and their past and prospective patrons placed in a friendly relationship, which would be impossible without knowing them individually.

A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in Royal Baking Powder

RECIPE FOR GRAY HAIR.
To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/2 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

SESSION CLOSES ON MARCH 14TH

Rules Committees to Have Charge of Bills Before General Assembly

WILLIAMS IS CUSTODIAN

House Impeachment Proceedings Passed Despite Fight of Meyers-Tax Revenue Bill Is Presented.

Frankfort, Ky.—(Special)—Governor Stanley and his administration backers will use every effort to have passed, during the closing days of the Legislature, those bills promised in the Democratic platform.

And, it is certain that these will be given preference with the Rules Committee of both Houses in charge of those to be voted upon.

The Rules Committee of the Senate have taken charge and will control all bills to be considered by the Senate until the close of the session, which is to be Tuesday, March 14. This committee will determine the order in which the measures are to be taken up and considered. Lieutenant Governor James D. Black is the ex officio Chairman and the members who were appointed by him are Senators W. W. Hooper, Thomas A. Connelley, John F. Ford, W. A. Frost, Seiden R. Glenn, H. J. Overstreet, Samuel L. Robertson and G. G. Speer. They are all Democrats and the majority of them are friendly to the administration in all things.

During the last ten days of the session, the Rules Committee of the House will have charge of all bills to be considered by the House. This committee is composed of Speaker J. C. Duffy, and Representatives Glover, B. Cary, R. T. Crowe, W. E. Dowling, Odle Duncan, William Duffy, Frank C. Greene, R. B. Hutchcraft, Jr., C. W. Mathers, Harry J. Meyers, S. M. O'Brien, George L. Picken, W. A. Price and Joseph D. Humphrey. This committee also counts a goodly majority friendly to the administration.

Bills that have passed both Houses follow:

Senate Bill No. 17, the Strickland Pickett anti-pass law, which was approved by the Governor February 10.

Senate Bill No. 102, the Knight bill to provide for the employment of State Inspector and Examiner Nat B. Sewell's office force.

House Bill No. 22, the Gibbs bill to permit cities of the second class to acquire and maintain law libraries.

House Bill No. 2, the Vance corrupt practices act.

House Bill No. 49, the Ryan act creating the office of matron of the Louisville police court.

Senator Rogers' bill No. 111 amend the adoption of school textbooks law.

House Bill No. 75 by Representative Ass. B. H. Houser, changing the time for holding circuit court in the Twenty-first judicial district.

Representatives of the farmers are insisting upon the enacting of a pure seed law, while Louisville seedmen appear to be opposing it with equal vigor.

The first general measure looking to reform Kentucky's revenue laws was introduced in the House by Representative Hutchcraft of Paris, has the support of the administration.

It provides that all taxpayers must swear to property lists before the Assessor or one of his deputies. A penalty is imposed on the Assessor who accepts a list not sworn to.

The measure provides for the examination of candidates for the office of Assessor by two or more members of the State Board of Equalization and Assessment and unless the candidate passes such an examination his name cannot go on the ballot for election.

The County Board of Supervisors will meet after the Assessor's work and verify to the State Board. The County Board are given greater powers to investigate the ownership of property.

The expense in connection with the State Board is increased from \$6,000 to \$15,000 under this bill. The backers of the bill are confident that the added revenue will justify this increase in administrative expenses.

J. E. Williams, the Republican County Judge of McCreary County, was impeached by the House of high crimes and misdemeanors, by a vote of 48 to 45.

Democratic floor leader, Harry Meyers of Covington, made a most gallant fight in his endeavor to save Judge Williams from impeachment. He protested vigorously and pleaded for a square deal. He insisted that the Democratic party in Kentucky is "too big, too great, too generous to play that kind of politics."

"The worst thing he has been charged with," said Meyers, "is that he put six Democrats in jail for six

hours. I confess I have been guilty of worse things than that. I have helped to put 43 Republicans in jail and to keep them until the election was over, and if it had been necessary, I was ready to put 58 Republicans in jail to help Governor Stanley."

Meyers defied the impeachment Committee to show any corrupt motive in any irregularly charged to Judge Williams. He declared a County Judge could not be perfect, and that the alleged irregularities imputed to Judge Williams were mistake of the head and not the heart.

Upon motion, Speaker Duffy appointed a committee to present articles of impeachment to the Senate. If the impeachment is upheld, Judge Williams will be removed from office, and the Senate may bar him from holding any office of honor, trust or profit, under the Commonwealth. In addition Judge Williams will be liable to indictment and punishment by the regular courts.

The Semi-monthly pay bill, introduced by Representative John T. Murphy, of Covington, passed the House by a vote of 57 to 42.

Representative Greene protested against having bills taken out of their regular order and placed ahead of his anti-screen bill. The House supported Representative Murphy and the bill was reported and passed.

Representative Murphy in his speech supporting the bill declared that 15,000 or 20,000 laboring men are united in favor of the measure.

The motion of Representative Layley to take the anti-screen bill from the orders of the day and put on its passage was defeated 46 to 41.

The bill of Representative Perry of Louisville, prescribing the manner of electing Commissioners in Jefferson County to constitute the Fiscal Court, passed the House unanimously.

The House resolution, directing the Auditor to refund to saloon keepers who were forced out of business by dry legislation their portion of the unearned license paid the state, passed the Senate 30 to 9. The resolution was called from the orders of the day by Senator Hooper of Spencer County.

Petitions are being received by Senators from various counties over the State urging the passage of the bill appropriating \$20,000 a year for four years to the Kentucky Literary Commission.

Providing for clerks and stenographers for the Department of Education, a bill passed the House of Representatives by a vote of 72 to 6.

The Court of Appeals recently decided Superintendent of Public Instruction V. O. Gilbert did not have authority to employ any of the clerks and stenographers in his office, and State Auditor Greene refused to issue warrants for the salaries of those who had been employed by Gilbert.

A grand total of \$11,050 a year is provided for the employing of ten assistants which includes five clerks and five stenographers.

Representative Minor of Boyle County, succeeded in having passed his joint resolution requesting Kentucky's representatives in Congress to vote against a proposed amendment to the Federal reserve act undertaking to extend the authority of national banks so they may establish and operate branch institutions. He explained such an amendment is unfair to state banks. The resolution was adopted by a vote of 20 to 1.

The Senate passed the bill of Senator Robertson of Louisville, to permit non-resident children to appear in stage performances by a vote of 26 to 1.

"Well, that's why I failed to get responses to so many of my letters," exclaimed a lad who had been defeated for a pageship upon reading in newspapers a statement attributed to Representative John T. Murphy, of Ludlow, to the effect that he had "found men in the lower house at Frankfort who cannot read or write."

The Senate passed the Knight-Meyers workmen's compensation bill 21 to 2. Senators Sanders and Speer cast the dissenting votes.

A call for a Progressive State Convention, to be held in Louisville, April 29, has been issued by the State Executive Committee. District mass meetings were called for April 22 to be held in the following cities, each representing a district in the order they are named: Princeton, Henderson, Bowling Green, Elizabethtown, Louisville, Covington, Lexington, Lancaster, Mayaville, Pikeville and London.

In investigating the accounts of various county officers on file at the State House, assistants in the Attorney-General's office have uncovered a new form of graft. It is simple. A man is employed by the sheriff at \$2 a day to go after a prisoner. He is gone ten days. That would indicate that his pay would be \$20. But in a bill sent in to the state for payment the pay asked for was figured like this: Ten days of 24 hours make 240 hours; a working day is eight hours; 240 hours divided by eight hours makes 30 days; at \$3 a day it would be \$90. Sheriff's profit \$60.

CATARRAHAL DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All druggists, 75 cts. F. J. CHANEY & CO, Toledo, O.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. I wish every suffering woman would give
